... What is the use of a system that takes so long, and why does it?

Blockchain for IoT: An AI and Smart Contracts Approach

This project is based on the idea of bringing these technologies together, taking advantage of the best features of both and creating a scalable system.

Blockchain Benefits

- ✓ Security
- ✓ Immutability
- ✓ Auditability

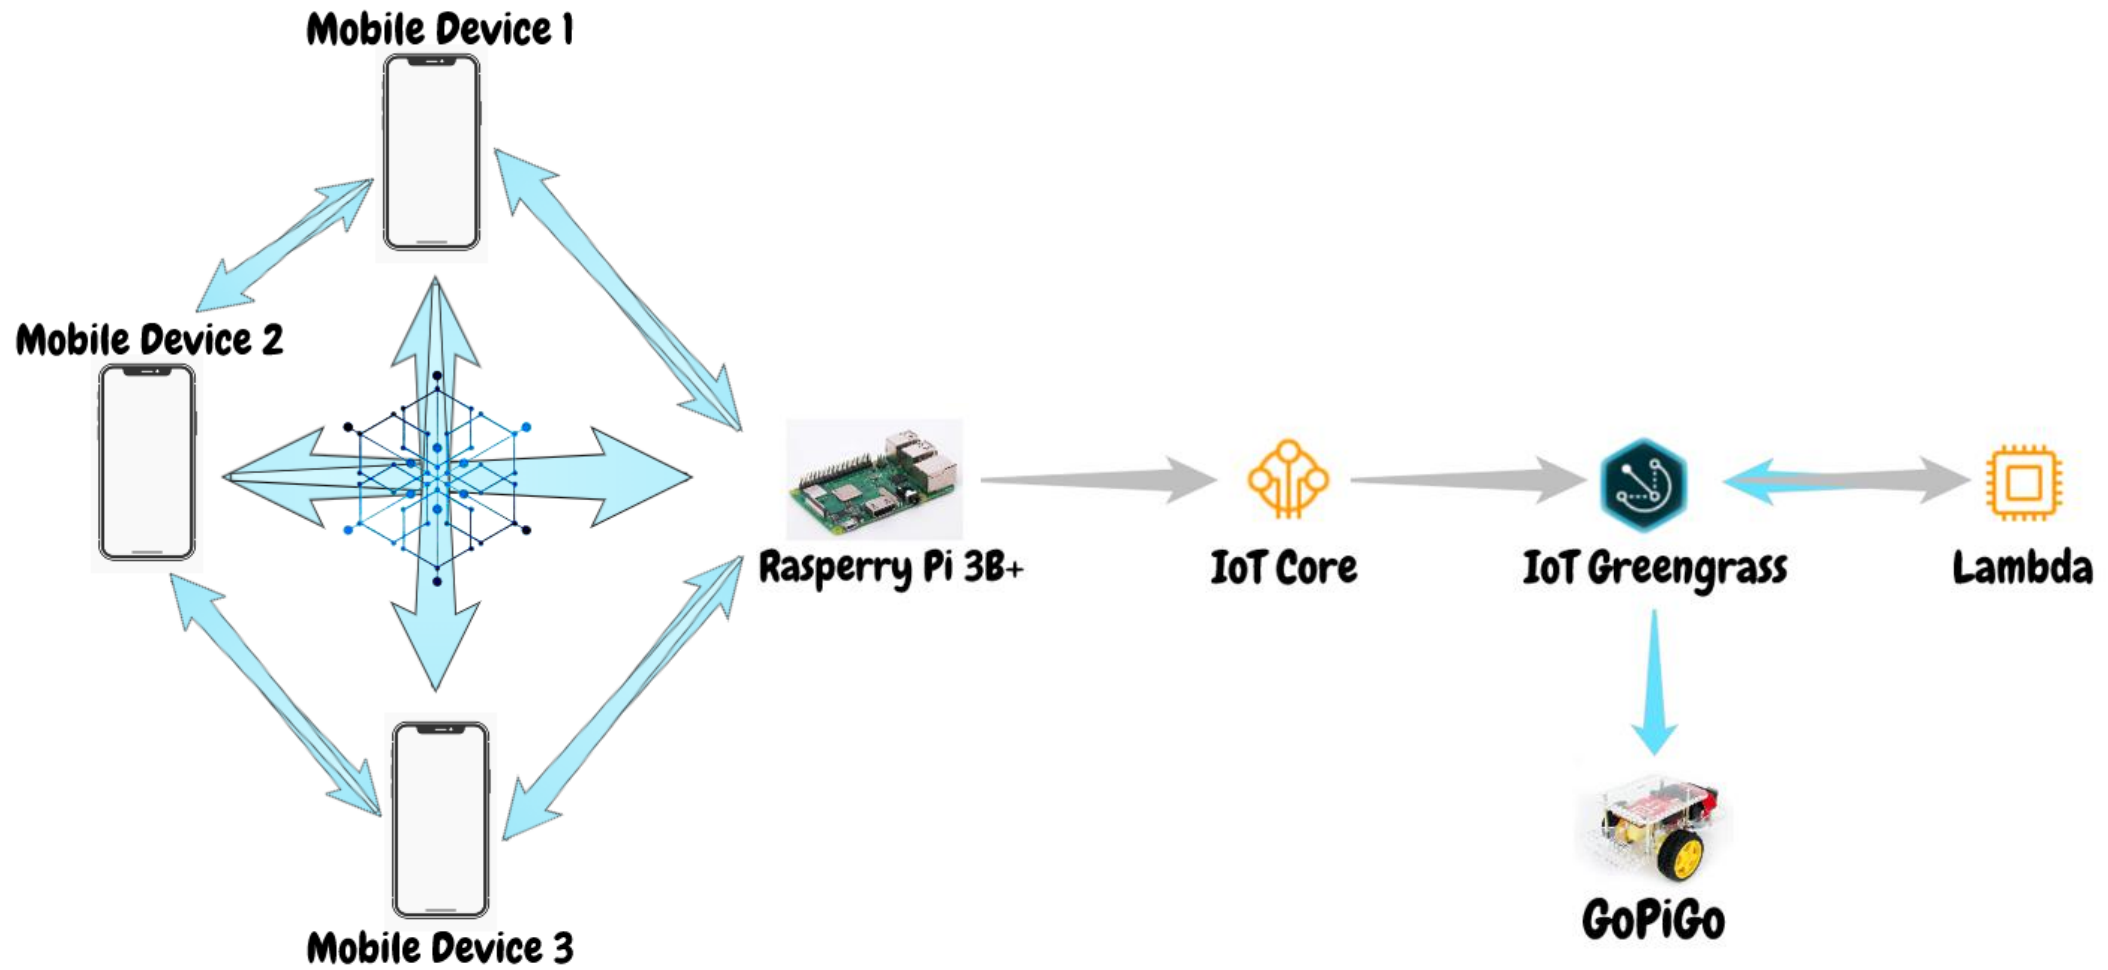

Cloud Benefits

- "Infinite" storage
- "Infinite" processing power
- Scalability

Blockchain for IoT: An AI and Smart Contracts Approach
